

On June 21<sup>st</sup>, 2020 the Session, after listening to feedback and suggestions from the first two “in-person” worship services, approved the following changes to in person worship.

- Worshippers are welcome to participate in worship responses and singing **IF** they wear a protective mask.
- The congregation will exit the sanctuary by rows guided by ushers and requested to completely exit the building into the parking lot before congregating in fellowship.
- The worship time for children will only be available on-line until children return to worship services.
- The online worship service will return to being recorded earlier in the week so that it can be made available at 10:00 am Sunday.
- All other safe worship practices will be maintained as previously communicated.

#### Communion:

Next Sunday July 5<sup>th</sup> we will celebrate the Lord’s Supper together wherever we are.

- **If you will be attending the “in-person” worship service**, safe preparation and distribution of the elements will be in place. Worshipers will come forward and pick up an individual cup containing bread and an individual cup of juice and return to their seats. We will take communion together as a body when the elements have been distributed.
- **If you will be worshipping with us from home**, you are asked to have a portion of bread and juice for you and your family ready so we may all take communion together as a body when the elements have been distributed.

*We come in union to the table as a body, to celebrate our union with Christ. Where ever we are let us worship together.*
